

CONSTRUCTION NOTICE

MOORE ROAD MAIN

Citizens Energy Group is preparing to extend new water mains in your area. Construction will begin on or after June 16 and will take approximately five months to complete. Construction will consist of a rolling work area that will progress along the alignment shown in the attached map. During construction, you can expect limited temporary lane restrictions. Barricades will be placed at 86th and 79th Streets to close the road to through traffic. However, local traffic can proceed as usual. We anticipate two temporary full road closures within the five-month window. During this time, local traffic will be maintained but access will need to be directed from either north or south of the work area. We will keep you informed as that work approaches. Motorists should follow all posted signage to avoid delays. Additional information about the project can be found at www.citizensenergygroup.com/CLWSP or by scanning the QR code below. We know construction is inconvenient, but we appreciate your patience as we work to minimize the impact on the community.
