

Water 

1

Turn off tap while brushing teeth.

2

Take shorter showers. (5-10 minutes)

3

Clean driveways and sidewalks with a broom instead of a hose.

Save the Earth!!!

Natural gas 

1

Turn down the thermostat to 65-69°F during the day and 58-60°F at night during cooler months.

2

Wash and dry only full loads of laundry and use the cold water setting on your washer.

3

Close your blinds when it gets dark outside to help cut heat loss through your windows at night.
